SUMMARY

2D/3D Artist and Game/Level Designer with over 3 years of experience shipping playable projects across horror, puzzle, and tactical genres — from solo game jams to studio production (Corecell Games) to Fortnite UEFN titles. Art-first approach to design: builds worlds and mechanics that read clearly and feel intentional. Proficient in Unity, Unreal, UEFN, and Blender. Have experience with reviewing indie games from both a developer perspective and artist perspective.

SKILLS

Engines & Development: Unity, Unreal Engine, UEFN (Fortnite Creative)
2D / Pixel Art: Aseprite, Procreate, Krita, Ibis Paint
3D & Modeling: Blender
Design: Level Design, Game Mechanics Design, Narrative/Story Design, Character & Environment Art, Animation, VFX

EXPERIENCE

Game Reviewer / Editor — Druidz.se (Bitemind, Sweden) *2026 - present*

- Reviewed several indie games and currently reviewing remotely
- Representative member of Druidz.se company in Thailand
- Portfolio of reviewed games - https://druidz.se/tag/kyaw-myoe-hein/
- Written articles - https://druidz.se/author/hein/

2D Pixel Artist / Animator — Corecell Games (Banchou Tactics: Lionheart 2) *2025*

Outsource Freelance

- Created pixel art character sprites and animations for a tactical turn-based game
- Designed combat effects VFX
- Redrew existing 2D character art into pixel-art style

PROJECTS

Card Htet Kya Soh! — Card Game (Indie) *1 month*

Art Lead (solo)

- A WebGL card game built around traditional Burmese art. I was the main artist and created the full visual identity of the game: the card illustrations, character art, user interface, and backgrounds.

For Stone Haven — Fortnite UEFN, Open-World RPG (Indie) *2 months*

Art & Design Lead (solo)

- Designed full open-world map layout, terrain, and 3D environment assets
- Built NPC conversation and event systems, currency and loot-drop mechanics, and custom minigames

Beacon — Fortnite UEFN, Horror (Indie) *2 weeks*

Solo Developer

- Built all core game mechanisms, level design, and phase-change system for a short horror experience
- Created cinematics and background music

Find Yourself — Puzzle, Pixel Art (Game Jam) *7 days*

2D Pixel Artist

- Created main character sprites and animation, background art, and environment assets — 4th place finish

Magnitude 7.7 — Story-Driven, 2D (Game Jam) *10 days*

2D Artist

- Created all character sprites, background art, and cinematic picture frames

Lumia — Horror, Pixel Art (Game Jam) *3 days*

2D Pixel Artist & Game Designer

- Created character sprites and animation and wrote the game's story — 5th place finish

E2Escape — Puzzle (Student Project) *2 months*

Level Designer

- Designed a full puzzle floor featuring trap-based mechanisms

Journey to Rangsit ICT — Horror (Student Project) *2 months*

Game Designer & Level Designer

- Designed a 3D indoor school-environment level

EDUCATION

Rangsit International University *Expected 2026*

B.Sc. Information and Communication Technology — GPA 3.7, First Class Honors

AWARDS

- 1st Place in 2 categories— Find Yourself (Game Jam)
- 4th Place by votes— Lumia (Game Jam)
